GEORGIA'S KEY ECONOMIC DRIVERS

Liberal economic policy

Top performer compared to peers across a wide range of international rankings

- Liberty Act (effective January 2014) ensures a credible fiscal framework; Fiscal deficit/GDP capped at 3%; Public debt/GDP capped at 60%.
- Following the emergency clause activation after the COVID-19 shock, the fiscal framework has returned within the rule bounds, as specified in the Liberty Act.
- Business friendly environment and low tax regime (attested by favorable international rankings).

Regional logistics and tourism hub

A natural transport and logistics hub, connecting land-locked energy rich countries in the east and European markets in the west

- Access to a market of 2.8 billion customers without customs duties: Free trade agreements with EU, China, Hong Kong, CIS and Turkey and GSP with USA, Canada, Japan, Norway and Switzerland; FTA with Israel and India under consideration. Georgia's preferential trading regimes support the country's resilience to regional external shocks.
- The importance of Georgia's strategic location has grown further as a reliable logistics hub following Russia's war in Ukraine.
- Tourism inflows continued to strengthen, reaching US\$ 4.7 billion in 2025.

Strong FDI

An influx of foreign investors on the back of the economic reforms have boosted productivity and accelerated growth

- FDI stood at US\$ 1.6 billion (4.6% of GDP) in 2024.
- FDI has averaged 7.8% of GDP since 2010.

Support from international community

Georgia and the EU signed an Association Agreement and DCFTA in June 2014, and Georgia was granted a European perspective in June 2022

- Visa-free travel to the EU is another major success in Georgian foreign policy. Georgian passport holders were granted free visa entrance to the EU countries from 28 March 2017.
- Georgia applied for EU membership together with Ukraine and Moldova in March 2022, and on 14 December 2023, the European Council granted the candidate status to Georgia.
- Strong political support from NATO, EU, US, UN and member of WTO since 2000; Substantial support from DFIs, the US and EU.

Energy transit hub potential

Developed, stable and competitively priced energy sector

- Only 20% of hydropower capacity utilised; 155 renewable (HPPs/WPPs/SPPs) energy power plants are in various stages of construction or development.
- Georgia imports natural gas mainly from Azerbaijan.
- Significantly boosted transmission capacity in recent years, a new 400 kV line to Turkey and 500 kV line to Azerbaijan built, other transmission lines to Armenia and Russia upgraded.
- Additional 2,000 MW transmission capacity development in the pipeline, facilitating cross-border electricity trade and energy swaps to Eastern Europe.
- Georgia's energy transit hub role has become particularly crucial in light of energy diversification efforts from Western countries since the beginning of Russia's war in Ukraine.
- Significant recent projects include the Trans-Anatolian Pipeline (TANAP), inaugurated in November 2019, and the Black Sea underwater electric cable project, signed in December 2022, linking Azerbaijani energy resources with Europe through Georgia and Turkey.

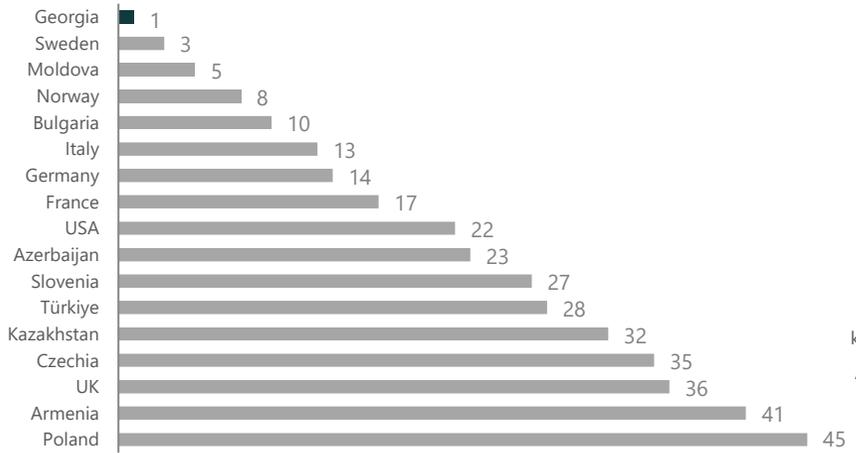

Stable political environment

- Georgia underscored its commitment to European values by securing a democratic transfer of political power in successive parliamentary, presidential, and local elections and by signing an Association Agreement and free trade agreement with the EU.
- New constitution amendments passed in 2013 to enhance governing responsibility of Parliament and reduce the powers of the Presidency.
- Russia began issuing visas to Georgians in March 2009; Georgia abolished visa requirements for Russians – Russia announced the easing of visa procedures for Georgian's citizens effective December 23, 2015.
- Member of WTO since 2000, allowed Russia's access to WTO; In 2013 trade restored with Russia.
- In 2025, Russia accounted for 10% of Georgia's exports and 10% of imports, as economic dependence has declined over the years.
